We have come to the end of the survey. We appreciate the time you have spent answering these questions. Your response and those of approximately **500 other women and 1500 men** will give us an understanding of men’s roles in society today, information that could be useful for driving changes in policies. It is important to emphasize that the laws in our country make it a crime to use physical violence against women, or to have sex with someone under age 18, and to force a woman to have sex with you.

If there are any of these issues discussed that you would like more information, such as where to go for health services in your community, we have prepared a list of such services. [**Hand brochure with list of relevant services in the community.**]

THANK YOU FOR YOUR TIME.
